

Sentarse con los árboles

1 bench = 6 trees planted

With the purchase of one bench, 6 trees will be planted as part of the programme "RESPONSARBOLIDAD" with a view to compensating for the release of the carbon dioxide that their production involves.

The model has a hole in the centre of its seat in which to situate the tree trunk, and offers two versions according to the development of the tree.

On the edge, in relief, we can find the word "THANK YOU". It is an ideal element for bringing man closer to trees, thus recovering a lost relationship.
