

Toscana

Prefabricated piece in vibrated concrete with a rough, granulated surface, anti-slip and with multiple regularly spaced circular holes.

These holes permit the growth of grass inside, with the aim of achieving a combination of grass and concrete.

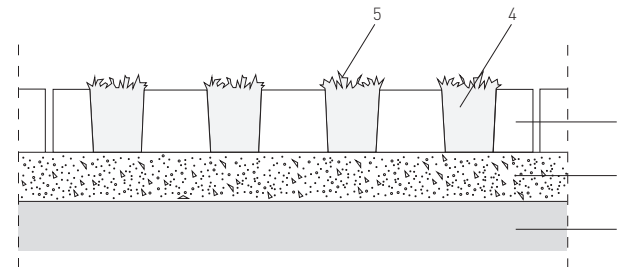

It is a very suitable and convenient paving for areas with pedestrian traffic in garden areas or in car parking areas..

© Patented Model

MATERIAL Architectural concrete
STANDARD COLOUR Grey, black
TEXTURA Surface pore-free
DIMENSIONS 60 x 60 x 8 cm.
